

Berlin Epidemiological Methods Colloquium

2021 BEMC TALKS

Time: First Wednesday of the month, 16:00-17:00 + group discussion

Location: Zoom webinar

Language: English

Web: bemcolloquium.com Twitter: [@BEMCollquium](https://twitter.com/BEMCollquium) Email: BEMColloquium@charite.de

- January 13 **Matthew Sperrin**, Manchester, UK
When is causal thinking needed for prediction?
- February 3 **Stefan Konigorski**, Potsdam, Germany
Digital N-of-1 trials: connecting personalised medicine and population-level studies?
- March 3 **Anthony Matthews**, Stockholm, Sweden
Comparing effect estimates in randomised trials and observational studies
- April 7 **Sonia Boender**, Berlin, Germany
Social media for public health #SoMe4epis
- May 5 **Eleanor Murray**, Boston, USA
The circle of life: epidemiologic methods for dealing with treatment-confounder feedback
- June 2 **Sabine Gabrysch**, Berlin, Germany
A cluster-randomised controlled field trial in practice: the Food and Agricultural Approaches to Reducing Malnutrition (FAARM) study in Bangladesh
- July 7 **Sabine Oertelt-Prigione**, Nijmegen, Netherlands
Current methodological challenges in the study of sex and gender in health research
- August **Summer Break**
- September 1 **Ben Van Calster**, Leuven, Belgium
The enemies of reliable risk prediction
- October 6 **Tracey Weissgerber**, Berlin, Germany
Taking shortcuts: great for travel, dangerous for writing reproducible methods sections
- November 3 **Sebastián Martínez**, Glasgow, UK
Causal inference in the presence of interference: generalised propensity score application on public health
- December 1 **Cecile Janssens**, Atlanta, USA
TBA
