

NEUROIMMUNOLOGICAL COLLOQUIUM

Spring/Summer 2019

Mondays at 5 p.m.

Charité Mitte Campus – Universitätsmedizin Berlin
Ferdinand Sauerbruch Hörsaal 4, Hufelandweg 6

- | | |
|------------|---|
| April 8th | <p>Dagmar Kainmüller, Ph.D.
Max Delbrück Center for Molecular Medicine Berlin, Germany
<i>Cell segmentation, classification, and tracking</i></p> |
| April 15th | <p>Resident Series
Susanna Asseyer, M.D.
<i>Pain at onset of MOG-IgG seropositive encephalomyelitis</i>
Frederik Bartels, M.D.
<i>Brain volume loss in pediatric autoimmune encephalitis</i>
Patrick Schindler, M.D.
<i>GFAP and NfL in serum of patients with NMO</i></p> |
| April 29th | <p>Stefan Gold, Ph.D.
Department of Neuropsychiatry, Charité-Universitätsmedizin Berlin, Germany
<i>Mechanisms of pregnancy protection from autoimmunity</i></p> |
| May 6th | <p>Sarah-Christin Staroßom, Ph.D.
Department of Immunology, Charité-Universitätsmedizin Berlin, Germany
<i>Chitinase-like proteins in oligodendrocyte regeneration</i></p> |
| May 13th | <p>Susanne Wolf, Ph.D.
Department of Experimental Ophthalmology, Charité-Universitätsmedizin Berlin, Germany
<i>Sexual dimorphism in microglia cells</i></p> |
| May 20th | <p>Menno Schoonheim, Ph.D.
Department of Anatomy & Neurosciences, Amsterdam University Medical Center, The Netherlands
<i>Are you connected? A network perspective on cognitive impairment in multiple sclerosis</i></p> |
| May 27th | <p>Doktorand Series
Jana Schließeit, B.Sc.
<i>Fatigue in early multiple sclerosis</i>
Silvina Romero Suárez, M.Sc.
<i>The identification of ILC1s in the murine central nervous system</i>
Marie-Luise Machule
<i>Antigen-specific T-cells in autoimmune encephalitis</i></p> |
| June 3rd | <p>Sofia Forslund, Ph.D.
Max Delbrück Center for Molecular Medicine Berlin, Germany
Hörsaal Nervenlinik, Bonhoefferweg 3 (changed location)
<i>Host-microbiome high-throughput approaches for hypothesis generation in systems medicine</i></p> |
| June 17th | <p>Martin Weygandt, Ph.D.
NeuroCure Clinical Research Center, Charité-Universitätsmedizin Berlin, Germany
<i>Neural mechanisms of psychological stress in MS and their role for disease severity</i></p> |
| June 24th | <p>Tanja Schmitz-Hübsch, M.D.
NeuroCure Clinical Research Center, Charité-Universitätsmedizin Berlin, Germany
<i>Patients reported outcomes in MS trials - why don't we ask the patient?</i></p> |
| July 1st | <p>Siawoosh Mohammadi, Ph.D.
Institute of Systems Neurosciences, Universitätsklinikum Hamburg Eppendorf, Germany
<i>NODDI-DTI: Extracting neurite orientation and dispersion parameters from a diffusion tensor</i></p> |
| July 8th | <p>Vanessa Morais, Ph.D. & Filipe Figueiredo, M.Sc.
Instituto de Medicina Molecular Lisboa, Portugal
<i>Role of mitochondria in brain homeostasis & the TEMPiMS Lisbon-Berlin cooperation</i></p> |
| July 15th | <p>Rahele Kafieh, Ph.D.
Isfahan University of Medical Sciences, Iran
<i>Deep learning for analysis of optical coherence tomography data in MS and NMO</i></p> |
| July 22nd | <p>Maarten Titular, Ph.D.
Erasmus Medical Center, Rotterdam, The Netherlands
<i>The spectrum of autoimmune encephalitis</i></p> |
