

Neurorepair 2022: surgery and rehabilitation

Berlin | 05. & 06.07.2022

We cordially invite you to the
Neurorepair 2022: surgery and rehabilitation

We are pleased to organize the Neurorepair Meeting 2022 in Berlin at the Charité Universitätsmedizin in Berlin with the aim to improve care in patients with a loss of neurological function.

Understanding and modulation of central, spinal and peripheral mechanisms as well as improvement of surgical techniques, advances in rehabilitation and technical innovations enhance the therapeutic options in our patients. We are looking forward to an interfield and interdisciplinary dialogue about current topics in reconstruction of function and advances in neuro-rehabilitation research to tighten the link between science, caregivers and patients.

We will welcome international specialists from Germany, Austria, other European countries and North America.

The scientific program will take place July 5th and 6th, 2022 nearby Charité Campus Mitte at Langenbeck-Virchow Haus, lecture hall, Luisenstr. 58/59, 10115 Berlin. A social evening is planned for the 5th of July 2022.

We are excited to see you in Berlin in July 2022.

Dr. med. Anna Zdunczyk
PD Dr. med. Nora Dengler
Prof. Dr. med. Peter Vajkoczy

Venue

Langenbeck-Virchow-Haus | Lecture hall
Robert-Koch-Platz 7 | 10115 Berlin
