

Open Innovation in Science Award of the Einstein Center for Neurosciences Berlin

Template for OIS project idea submissions

Submission deadline: July 7, 2023
Please submit to ecn-office@charite.de!

Name & affiliation of each researcher who is (co-) submitting this OIS proposal
Please include a contact email address of the main contact person.

Part 1 | OIS project context (max. 300 words)

Please describe in which new or ongoing neuroscientific research project or research program this OIS project idea is embedded in.

Part 2 | OIS project goal (max. 600 words)

Please describe what "research challenge/s" in the process of generating and/or translating this neuroscientific research project (*e.g., finding a novel and relevant research question/hypothesis; data access/data quality/data quantity; access to funding, infrastructure or other resources; efficiency/speed/accuracy in collecting/analyzing/processing data; avoiding biases in interpreting your findings; overcoming the translational gap, etc.*) do you want to address with your OIS project idea?

Part 3 | OIS project approach (max. 900 words)

Please describe with whom externally (outside your academic field and/or outside academia), how and under which terms you plan to plan to collaborate or exchange knowledge and other resources (OIS processes, methods and tools) to achieve your project goal?

Part 4 | OIS project value (max 300 words)

Please describe how this OIS project idea contributes to better (increased novelty, efficiency, and/or impact) generating and/or translating this neuroscientific research (vs. doing it in the traditional way)?
